

Deployment: Dawn of War
Game length: Random game length (see pg. 133 of 40k rulebook)
Rules: Night Fight, Reserves, Mysterious Objectives

Mission Objectives:

The player who achieves the most battle points wins the game.

Goal #1 15 points

Goal #2 9 points

Goal #3 6 points

Goal #1

Kill 'em all!

At the end of the game, each player receives 1 kill point for each enemy unit that has been completely destroyed. Units that are falling back at the end of the game, and units that are not on the board at the end of the game, count as destroyed for the purposes of this mission. Independent characters and dedicated transports are considered individual units when determining kill points. The player with the most kill points achieves this goal. In the result of a tie, both players will receive 8 points for this goal.

Goal #2

Maelstrom!

Each player places one Maelstrom objective in their deployment zone and one in their opponent's deployment zone. These are numbered 1 and 2. At the beginning of each game turn, both players will roll twice on the table below. Reroll the second roll if it is the same number as the first. Note the results on your score sheet. At the end of each game turn, each player earns 1 point per Maelstrom goal achieved. (Note if both of your rolls are to destroy an enemy unit, destroying 1 unit earns 1 point, destroying 2 units earns you 2 points.) The player with the most points at the end of the game wins this mission. In the event of a tie, each player will receive 5 points for this goal.

Maelstrom chart:

- 1) Hold Maelstrom Objective 1 in the enemy deployment zone
- 2) Hold Maelstrom Objective 2 in the enemy deployment zone
- 3) Hold Maelstrom Objective 1 in your deployment zone
- 4) Hold Maelstrom Objective 2 in your deployment zone
- 5) Have a scoring unit at least partially within the enemy deployment zone
- 6) Have at least 3 of your scoring units and no enemy units at least partially within your deployment zone.

Goal #3

Relic.

Place one marker at the exact center of the board to represent the Relic. Players may pick up, move, and drop the Relic. The rules for picking up, moving, and dropping the Relic are located on page 147 of the 40k rulebook (zooming/swooping flyers or vehicles can't pick up the relic). The player that controls the Relic at the end of the game wins. In the result that neither player controls the Relic at the end of the game, neither player will achieve this goal.
